

STUDENT PRICE INDEX (SPI) UPDATE

The March 2025 Central Washington University Student Price Index shows a 2.0 percent increase in the cost of living compared to March 2024, with the most significant changes again being in housing and beer, along with school supplies as the latest contributor. The changes to beer prices is now one of the top contributors to the SPI monthly for the fifth month in a row. The school supply decrease could be due to the new quarter starting, so they're on a deal. The SPI estimate this month is higher than the estimated price changes for the Pacific Northwest and the CPI (the average American), which saw an increases of 2.6 percent, and 2.4 percentage, respectively.

INFLATION RATES

ANNUAL

Central Washington University Student Price Index (SPI)	2.0 %
Pacific Region (CPI) ¹	2.6 %
United States (CPI) ²	2.4 %

MONTHLY

Central Washington University Student Price Index (SPI)	-5.9 %
Pacific Region (CPI) ¹	0.6 %
United States (CPI) ²	0.2 %

Last update: Fall 2022

THE SPI PROJECT

This project, led jointly by the Economics Association and the Department of Economics at CWU, develops a price index of the cost of college living in Ellensburg, Washington. Based on the campus-wide survey, each month the members of the Economic Association collect prices of items typically consumed by CWU students from various stores in Ellensburg to calculate the SPI index and inflation rates. This index's strength lies in identifying the change in prices students in Ellensburg face.
